Abstracts

OPEN FORUM—2006, 1271

Acute respiratory distress syndrome (ARDS)

apparatus dead space effects on P_{aCO_2} in lung-protective ventilation, 1140

open vs closed suctioning impact on gas exchange and hemodynamics, 497

PEEP level for oxygenation maintenance after lung recruitment, 1132

Adolescents

asthma in, learning needs and Internet use, 1441

book review

Asthma information for teens: health tips about managing asthma and related concerns (Bellenir K), 431

Aerosols and aerosol administration

continuous administration methods for methacholine challenge testing, 46

COPD problems, 158

dry powder inhalers, 164

metered-dose inhalers, 161

small-volume nebulizers, 168

dead space of face masks with holding chambers, 140

heliox delivery

albuterol nebulization for asthma exacerbations, 613

in children, 625

in mechanical ventilation, 634

high impact aerosol technology (editorial), 1228

infant aerosol holding chamber face masks (editorial), 123

jet nebulizer delivery in ventilated newborns, 1244

levalbuterol delivery, nonelectrostatic vs nonconducting valved holding chamber, 511

nebulized bronchodilator delivery, pediatric lung model, 56

nonelectrostatic materials in holding chambers, 503

Airflow obstruction

curvilinearity index, 40

Air pollution

book review

Air pollutants and the respiratory tract, 2nd ed (Foster WM, Costa DL), 544

Airway care and management

in amyotrophic lateral sclerosis, 878

book review

Imaging of the airways: functional and radiologic correlations (Naidich DP et al), 190

in lung transplantation, 396

in neuromuscular disease, 913

in pediatric neuromuscular disease, 886

Airway obstruction

chest physiotherapy with positive airway pressure, 1145

forced expiratory time and spirometric performance, 246

heliox use in children, 622

Albuterol

heliox-driven nebulization for asthma exacerbations, 613

hydrofluoroalkane, nonelectrostatic materials in holding chambers, 503

levalbuterol delivery, nonelectrostatic vs. nonconducting valved holding chamber, 511

Allergies

book reviews

Allergy and asthma in modern society: a scientific approach (Cameri R), 1268

Prevention of allergy and allergic asthma: World Allergy Organization project report and guidelines (Johansson SGO, Haahela T), 430

Alpha-1 antitrypsin deficiency

Alpha-1 Foundation and, 526

Alpha-1 Foundation

formation, impact, and success factors, 526

American Association for Respiratory Care

OPEN FORUM abstracts–2006, 1271

Amyotrophic lateral sclerosis

respiratory effects, 871, 1067

Anemia

in renal failure, 418

Anesthesia and anesthetics

transcutaneous and end-titration capnometer evaluations, 1162

Anoxia

heliox use and risk of, 657

Anthracoilicosis

charcoal aspiration and (case report), 1251

Appointments and schedules

reminder calls and outpatient absenteeism, 36

Arterial blood gases

apparatus dead space effects on P_{aCO_2} in lung-protective ventilation, 1140

blood-gas tensions with positive expiratory pressure in cystic fibrosis, 1154

pH in exhaled breath concentrates, monitoring in mechanical ventilation, 1125

Asbestos

rounded atelectasis with atypical computed tomography findings (case report), 761

Aspiration

charcoal (case report), 1251

Asthma

in adolescents, learning needs, 1441

book reviews

ABC of asthma, 5th ed (Rees J, Kanabar D), 1266

Allergy and asthma in modern society: a scientific approach (Cameri R), 1268

Benchmarking

normalizing data for, 145

Billing systems

normalizing benchmarking data, 145

Bioterrorism

book review

Bioterrorism: a guide for hospital preparedness (Masci JR, Bass E), 300

Blood gas analysis

oscillating vs non-oscillating positive expiratory pressure in cystic fibrosis, 1154

specimen handling (editorial), 717

syringe material, storage time, and temperature effects on, 732

transcutaneous and end-titration capnometer evaluations, 1162

Blood gas monitoring

forehead reflectance pulse oximetry vs digit sensor, 726

Blood pressure

management in acute brain injury, 361

Body mass index

noninvasive positive-pressure ventilation and (editorial), 121

noninvasive positive-pressure ventilation and weight gain in COPD, 126

Body ventilators

in neuromuscular disease, 897

Body weight

in cachectic COPD patients receiving NPPV, 126

respiratory failure and (editorial), 121
