

# Coming in February

## EDITOR'S CHOICE

Home O<sub>2</sub> Evaluation by RTs in Patients Hospitalized for COPD Exacerbation

## ORIGINAL RESEARCH

HFJV in Pediatric Acute Respiratory Failure

RT Extender Comfort With Mechanical Ventilation During COVID-19

Ventilatory Ratio and Mortality in Children and Young Adults

NIV, NAVA, and PSV in Acute Respiratory Failure

V<sub>T</sub>, Driving Pressure, and Mechanical Power in Lung Protective Ventilation

Continuous INO vs Noninvasive Delivery

Lung Expansion in Comatose Subjects

30-day Reintubation Following Surgery

Exercise, Lung Aeration, and Oxygenation in Critically Ill Subjects

P<sub>ETCO<sub>2</sub></sub>/P<sub>aCO<sub>2</sub></sub> as Signifier for V<sub>D</sub>/V<sub>T</sub> in ARDS

Carbon Monoxide, Heart Rate, S<sub>pO<sub>2</sub></sub>, and Perfusion in Hookah Lounge Patrons

Addressing Environmental Smoke Exposure During Pediatric Hospital Stays

Airway Microbiology in Tracheostomized Children

SBTs and Cardiorespiratory Stability of Preterm Infants

6-min Step Test Reproducibility in COPD

Prevalence and ICU Bed Use in Subjects With PMV

## SYSTEMATIC REVIEWS

Safety and Early Mobilization in Mechanically Ventilated ICU Subjects

Systemic Corticosteroid Dosing in COPD

## NARRATIVE REVIEWS

IS for Prevention of Pulmonary Complications After Thoracic Surgery

Mechanical Ventilation Management During Chest Compression

## EDITORIALS

Hospital RTs and Home O<sub>2</sub> Therapy

HFJV: Making Inroads in the PICU

CRNAs Stepping Over From the OR
