

# Coming in July

## EDITOR'S CHOICE

Transpulmonary Pressure-Guided Lung  
Protective Ventilation

## ORIGINAL RESEARCH

Decreasing Unplanned Extubations in the NICU

NIV in Subjects With Sepsis and Acute  
Respiratory Failure

Multiplex Ventilation: Solutions for Four Main  
Safety Problems

Patient-Ventilator Synchrony During Pediatric  
NIV

Face Mask Use in a Pediatric Health System  
During COVID-19

## EGAN LECTURE

Evidence-Based Respiratory Care

## PETTY LECTURE

Long-Term Domiciliary NIV for COPD

## KITTREDGE LECTURE

Noninvasive Respiratory Support

## NEW HORIZONS SYMPOSIUM

Management of Postoperative Hypoxemia

Preoperative Pulmonary Risk Assessment

## 2020 YEAR IN REVIEW

Pharmacologic Treatments for COVID-19  
Shared Ventilation

## SPECIAL ARTICLE

Anesthesia Machine Ventilators in Critical Care  
for COVID-19

## INVITED REVIEW

Upper Airway Assessment and Responses During  
Mechanically Assisted Cough

## AARC CLINICAL PRACTICE GUIDELINES

Management of Pediatric Patients With Oxygen  
in the Acute Care Setting

## EDITORIALS

Lung-Protective Ventilation in Obese Patients

The AARC Honor Lectures
