### A

#### Abstracts

OPEN FORUM-2005, 1467

#### *Acinetobacter* species

in ventilator-associated pneumonia, 746

#### Acute chest syndrome

intermittent positive expiratory pressure vs incentive spirometry in, 624

#### Acute respiratory distress syndrome (ARDS)

chest wall in, 89

lung compliance in, 236

lung protective ventilation and work of breathing in, 1614 (editorial), 1623

multiple-system organ failure in, 646

physiologic dead space measurement, 462

piston position and CO<sub>2</sub> elimination, in high-frequency ventilation, 361

pressure-volume curves in, 78

respiratory mechanics and ventilator waveforms, 235

ventilator-associated pneumonia in, 755

volumetric capnography in (editorial), 457

#### Adherence, patient. *See* Patient compliance

#### Adolescents

metered-dose and dry powder inhalers for asthma, 1323

#### Aerosols and aerosol administration

albuterol delivery

during noninvasive positive-pressure ventilation, 1649

via tracheostomy tube, 1071

cascade impactor temperature and, 1077

distribution and positive expiratory pressure, in cystic fibrosis, 1438

drug delivery issues, 1228

dry powder inhalers

for children, 1323

conference proceedings, 1138, 1304

conference summary, 1376

formulations for, 1209

overview, 1304

for gene therapy, 1166

history of, 1139

The inhalation of drugs: advantages and problems (Kittredge Lecture), 367

inhaled insulin, 1163

metered-dose inhalers

for children, 1323

conference proceedings, 1138, 1304

conference summary, 1376

pressurized, 1191, 1331

nebulizers vs inhalers, clinical features, 1313

in noninvasive positive-pressure ventilation (editorial), 1621

patient compliance with regimen, 1346

inhaler demonstrations and, 598

patient-device interactions and drug deposition, 1151

for systemic drug delivery, gene therapy, and vaccination, 1161

The true cost of aerosol therapy (letter), 1083

for vaccination, 1169

#### Airway care and management

book review

*Essentials of airway management* (Dolenska S et al), 389

expiratory rib cage compression and, 1430

tracheostomy and, 535

#### Airway obstruction

measurement in mechanical ventilation, 110

#### Airway pressure

in manual ventilation, 340

pressure-volume curves, 78

**Airway resistance**

- Dynamic hyperinflation, intrinsic positive end-expiratory pressure, and respiratory rate (letter), 386
- Expiratory rib-cage compression, airway suctioning, and atelectasis (letter), 387
- tracheostomy and, 478, 527, 528

**Airways, artificial**

- in ventilator-associated pneumonia, 900

**Albuterol**

- delivery during noninvasive ventilation, 1649
- delivery via tracheostomy tube, 1071

**Allergies**

- book review
  - The Washington manual: allergy, asthma, and immunology subspecialty consult* (Jost BC et al), 394

**American Association for Respiratory Care**

- OPEN FORUM abstracts—2005, 1467

**Animal models**

- porcine, for cardiac arrest, 628

**Anisocoria**

- ipratropium-bromide-induced, from ill-fitting face mask, 1662

**Antibiotic drugs**

- de-escalation in ventilator-associated pneumonia, 970
- nitric oxide and nosocomial pneumonia bacteria, 1428
- for ventilator-associated pneumonia, 932

**Antimicrobial drugs**

- aerosol delivery of, 947
- classes of, 934
- pharmacokinetics, 934
- prophylactic, for ventilator-associated pneumonia prevention, 729
- for ventilator-associated pneumonia, 932

**Antimicrobial resistance**

- selective decontamination of digestive tract and, 910
- in ventilator-associated pneumonia, 718, 792, 932

**Aspiration**

- tracheostomy and, 547

**Asthma**

- book reviews
  - Pharmacology and therapeutics of asthma and COPD* (Page CP, Barnes PJ), 662
  - The Washington manual: allergy, asthma, and immunology subspecialty consult* (Jost BC et al), 394
- inhalation devices for, history of, 1143
- inhaler demonstrations and patient compliance (editorial), 598
- metered-dose and dry powder inhalers for children, 1323
- patient counseling about inhaler technique, 617
- pressure-volume curves in, 93

**Asynchrony, patient-ventilator**

- in chronic obstructive pulmonary disease, 248, 253
- expiratory, 228

flow, 212

graphics identifying, 202

lung protective ventilation and work of breathing, 1623

termination, 225

trigger, 204

**Atelectasis**

- in lung-protective mechanical ventilation, 768

**Auscultation and breath sounds**

book reviews

*Breath sounds made incredibly easy!* (Hausauer J, Haynes N), 395

*Fundamentals of lung and heart sounds*, 3rd ed (Wilkins RL et al), 295

software review

*R.A.L.E. lung sounds 3.1 professional edition*, 1385

The stethoscope—obsolescence or marriage (letter), 660

**B**

**Bacteria**

- nitric oxide as bactericidal agent (editorial), 1428
- in ventilator-associated pneumonia, 744

**Bag ventilation. See Ventilation, manual**

**Barotrauma**

manual ventilation

peak pressures during, 340

risk factors (editorial), 338

ventilator-induced lung injury (Egan Lecture), 646

**Bench evaluations**

closed suctioning systems and ventilator performance, 345

helium-oxygen gas mixtures in mechanical ventilators, 354

home volume ventilators supporting open-circuit mouthpiece, 1457

inhalation devices, patient-device interactions, and drug deposition, 1151

oxygen-powered resuscitator vs manual ventilation, 1445

piston position and CO<sub>2</sub> elimination in high-frequency ventilation, 361

**Biotrauma**

- from mechanical ventilation, 644

**Blood gases**

book review

*Clinical blood gases: assessment and intervention*, 2nd ed (Malley WJ), 294

**Blood pressure**

positive-pressure ventilation and venous return, 262

reduced ventilation frequency in CPR, 628

**Book reviews**

*ACP medicine*, 2004-2005 edition (Dale DC, Federman DD), 128

- ACSM's exercise management for persons with chronic diseases and disabilities*, 2nd ed (Durstine JL, Moore GE), 663
- Acute exacerbations in chronic obstructive pulmonary disease* (Siafakas NM et al), 126
- Adventures of an oxy-phile* (Petty TL), 1669
- Atlas of chest sonography* (Mathis G, Lessnau KD), 987
- Breath sounds made incredibly easy!* (Hausauer J, Haynes N), 395
- Capnography: clinical aspects. Carbon dioxide over time and volume* (Gravenstein JS et al), 1667
- Cardiopulmonary imaging* (Kazerooni EA, Gross BH), 297
- Clinical blood gases: assessment and intervention*, 2nd ed (Malley WJ), 294
- Clinical intensive care and acute medicine*, 2nd ed (Hillman K, Bishop G), 1255
- Clinical respiratory medicine*, 2nd ed (Albert RK et al), 390
- Clinical scenarios in thoracic surgery* (Kalimi R, Faber P), 551
- Clinical sleep disorders* (Carney PR et al), 1087
- Clinical tuberculosis*, 3rd ed (Davies PDO), 665
- Cystic fibrosis: a guide for patient and family*, 3rd ed (Orenstein DM), 392
- Difficult conversations in medicine* (Macdonald E), 1465
- Diffuse lung disease: a practical approach* (Baughman RP et al), 1086
- Essential of pediatric intensive care* (Stack CG, Dobbs P), 1464
- Essentials of airway management* (Dolenska S et al), 389
- The essentials of respiratory care*, 4th ed (Kacmarek RM et al), 1665
- Evidence-based management of patients with respiratory failure* (Esteban A et al), 553
- Evidence-based practice manual: research and outcome measures in health and human services* (Roberts AR, Yeager KR), 1089
- Fast facts—chronic obstructive pulmonary disease*, 2nd ed (MacNee W, Rennard SI), 127
- Fast facts—obstructive sleep apnea* (Phillips B, Naughton MT), 127
- Fundamentals of lung and heart sounds*, 3rd ed (Wilkins RL et al), 295
- Guidelines for pulmonary rehabilitation programs*, 3rd ed (American Association of Cardiovascular and Pulmonary Rehabilitation), 1085
- Handhelds in medicine: a practical guide for clinicians* (Strayer SM et al), 1384
- ICU recall*, 2nd ed (Thaemert NL, Tribble CG), 391
- Idiopathic pulmonary fibrosis* (Lynch JP III), 840
- Interventional pulmonary medicine* (Beamis JF et al), 554
- Leadership for great customer service: satisfied patients, satisfied employees* (Mayer TA, Cates RJ), 984
- Long-term intervention in chronic obstructive pulmonary disease* (Pauwels RA et al), 1085
- Lung development and regeneration* (Massaro DJ et al), 839
- Making sense of lung function tests: a hands-on guide* (Dakin JH et al), 984
- The mold survival guide for your home and for your health* (May JC, May CL), 667
- Monitoring of respiration and circulation* (Blom JA), 1384
- Mosby's respiratory care equipment*, 7th ed (Cairo JM, Pilbeam SP), 1462
- Oxford handbook of acute medicine*, 2nd ed (Ramrakha PS, Moore KP), 1253
- Percutaneous tracheostomy: a practical handbook* (Paw HGW, Bodenham AR), 1258
- Pharmacology and therapeutics of asthma and COPD* (Page CP, Barnes PJ), 662
- Physiology of sport and exercise*, 3rd ed (Wilmer JH, Costill DL), 295
- Practical handbook of nebulizer therapy* (Boe J et al), 125
- Principles of exercise testing and interpretation: including pathophysiology and clinical applications*, 4th ed (Wasserman K et al), 985
- Pulmonary circulation: diseases and their treatment*, 2nd ed (Peacock AJ, Rubin LJ), 988
- Q&A color review of general critical care* (Horst HM, Karmy-Jones RC), 1255
- Recent advances in the pathophysiology of COPD* (Hansel TT, Barnes PJ), 1464
- Respiratory care made incredibly easy!* (Barefoot WC), 1666
- Sepsis* (Ortiz-Ruiz G, et al), 1257
- Sleep medicine in clinical practice* (Silber MH et al), 841
- Supportive care in respiratory disease* (Ahmedzai SH, Muers MF), 1668
- Surviving intensive care* (Angus DC, Carlet J), 1256
- Therapy for mucus-clearance disorders* (Rubin BK, van der Schans CP), 1462
- Thoracic imaging: pulmonary and cardiovascular radiology* (Webb WR, Higgins CB), 841
- Thoracoscopy for physicians: a practical guide* (Buchanan DR, Neville E), 298
- Tracheostomy: a multiprofessional handbook* (Russell C, Matta B), 550
- The Washington manual: allergy, asthma, and immunology subspecialty consult* (Jost BC et al), 394
- Writing and defending your IME report: the comprehensive guide* (Babitsky S et al), 298

- Breath sounds.** *See* Auscultation and breath sounds
- Bronchoalveolar lavage**  
for ventilator-associated pneumonia diagnosis, 797
- Bronchodilators, bronchodilatation and bronchodilator administration**  
history of, 1139  
in noninvasive positive-pressure ventilation (editorial), 1621  
pressurized metered dose inhalers in mechanical ventilation, 1331
- Bronchoscopy**  
fiberoptic, for ventilator-associated pneumonia diagnosis, 797
- Burns**  
ventilator-associated pneumonia and, 757

## C

- Capnography and capnometry**  
book review  
*Capnography: clinical aspects. Carbon dioxide over time and volume* (Gravenstein MD et al), 1667  
volumetric  
in acute respiratory distress syndrome (editorial), 457  
in respiratory dead space measurement, 462  
waveforms in mechanical ventilation, 100
- Carbon dioxide**  
piston position and elimination of, in high-frequency ventilation, 361  
waveforms in mechanical ventilation, 100
- Cardiopulmonary resuscitation (CPR).** *See* Resuscitation
- Case reports**  
cystic fibrosis with celiac disease in adult, 644  
paraquat poisoning, 383  
sirolimus-induced interstitial pneumonitis, in kidney transplantation, 1659
- Catheterization**  
esophageal and gastric pressure measurements, 68
- Celiac disease**  
with cystic fibrosis, in adults, 644
- Chest compression**  
expiratory, in mechanical ventilation, 1430
- Chest imaging**  
book review  
*Cardiopulmonary imaging* (Kazerooni EA, Gross BH), 297
- Chest physical therapy**  
Expiratory rib-cage compression, airway suctioning, and atelectasis (letter), 387  
expiratory rib cage compression, in mechanical ventilation, 1430

- Child**  
metered does and dry powder inhalers for asthma in, 1323
- Chlorofluorocarbons**  
in metered dose inhalers, 1192  
transition to hydrofluoroalkanes, drug development and, 1201
- Chronic lung disease**  
book review  
*Supportive care in respiratory disease* (Ahmedzai SH, Muers MF), 1668
- Chronic obstructive pulmonary disease (COPD)**  
book reviews  
*Acute exacerbations in chronic obstructive pulmonary disease* (Siafakas NM et al), 126  
*Fast facts—chronic obstructive pulmonary disease*, 2nd ed (MacNee W, Rennard SI), 127  
*Long-term intervention in chronic obstructive pulmonary disease* (Pauwels RA et al), 1085  
*Pharmacology and therapeutics of asthma and COPD* (Page CP, Barnes PJ), 662  
*Recent advances in the pathophysiology of COPD* (Hansel TT, Barnes PJ), 1464  
exacerbations, noninvasive positive-pressure ventilation for, 596, 610  
nebulizers vs inhalers for, 1313  
office spirometry and, 1619 (editorial), 1639  
ventilator-associated pneumonia in, 757  
ventilator graphics and respiratory mechanics, 246
- Clinical pulmonary infection score**  
in ventilator-associated pneumonia, 790
- Communication**  
book review  
*Difficult conversations in medicine* (Macdonald E), 1465
- Compliance, lung**  
in acute respiratory distress syndrome, 236  
pressure-volume curves, 78  
ventilator circuit signals and, 55
- Computer simulation**  
inhaled drug delivery, 1228
- Conference proceedings**  
applied respiratory physiology, 26, 166  
in acute lung injury, 235  
capnographic waveforms in mechanical ventilation, 100  
in chronic obstructive pulmonary disease, 246  
esophageal and gastric pressure measurements, 68  
foreword, 26  
measurement of air trapping, PEEP, and dynamic hyperinflation, 110  
patient-ventilator asynchrony, 202  
pressure-volume curves, 78  
respiratory mechanics monitoring, 28

- summary, 287  
ventilator circuit signals and respiratory mechanics, 55  
ventilator graphics and dual-control mode settings, 187  
ventilator waveforms and pressure support ventilation, 166  
in ventilator weaning, 275  
waveform analysis in hemodynamically unstable patients, 262  
metered-dose and dry powder inhalers, 1138, 1304  
chlorofluorocarbon to hydrofluoroalkane transition, 1201  
clinical features of nebulizers and inhalers, 1313  
drug delivery issues, 1228  
dry powder inhalers  
formulations for 1209  
overview, 1304  
expanding role of aerosols, 1161  
history of aerosol therapy, 1139  
inhalation therapy in mechanical ventilation, 1331  
metered dose inhalers  
design principles, 1177  
optimizing aerosol delivery by, 1191  
patient adherence to aerosol regimen, 1346  
patient-device interactions and deposition, 1151  
for pediatric patients, 1323  
problems with inhaler use, 1360  
summary, 1376  
tracheostomy (New Horizons Symposium)  
anatomy and physiology, 476  
decannulation, 538  
early complications of, 511  
evidence-based management, 516  
facilitating speech with, 519

*Principles of exercise testing and interpretation: including pathophysiology and clinical applications*, 4th ed (Wasserman K et al), 985

### Extubation

cuff-leak test, limited value of (editorial), 1617  
terminal, respiratory therapists' attitudes toward, 1046  
tracheal tube cuff leak test and stridor following, 1632  
of tracheostomy tube, 538

## F

### Flow and flow rate

heat and moisture exchangers, resistance and, 636  
inhaled drug delivery, 1228  
in ventilator signal processing, 33

### Fluids and secretions

expiratory rib cage compression and removal of, 1430  
subglottic drainage, in ventilator-associated pneumonia, 900

### Fraction of inspired oxygen (F<sub>IO<sub>2</sub></sub>)

assessment of, 594  
low-flow vs high-flow nasal cannulas, 604  
open- vs closed-mouth breathing and, 604

### Fungi

in ventilator-associated pneumonia, 754

## G

### Gas exchange

piston position and CO<sub>2</sub> elimination in high-frequency ventilation, 361

### Gastric pressure

measurement of, 68  
oxygen-powered resuscitator vs manual ventilation, 1445  
ventilation during cardiopulmonary resuscitation (editorial), 1426

### Gastrointestinal tract

selective decontamination of, 910  
in ventilator-associated pneumonia, 910

### Gene therapy

aerosol administration of, 1166

### Group processes

annual retreat and process improvement, 1654

## H

### Handbooks

book review  
*Oxford handbook of acute medicine*, 2nd ed (Ramrakha PS, Moore KP), 1253

### Handheld computers

book review  
*Handhelds in medicine: a practical guide for clinicians* (Strayer SM et al), 1384

### Heart arrest

porcine model, reduced ventilation frequency during CPR, 628

### Heart auscultation

book review  
*Fundamentals of lung and heart sounds*, 3rd ed (Wilkins RL et al), 295

### Heart failure, congestive

pressure-volume curves in, 92

### Heat and moisture exchangers

saturation and flow rate effects on resistance, 636  
ventilator-associated pneumonia risk and, 778

### Helium-oxygen gas mixture

for chronic obstructive pulmonary disease, 256  
in mechanical ventilators, 354

### Hemodynamics

waveform analysis and, 262

### High-frequency oscillation

piston position in CO<sub>2</sub> elimination and gas displacement, 361

### Hospitalization

inpatient respiratory care, changing patterns of, 1033

### Humidifiers and humidification

inhaled drug delivery and, 1228  
for tracheostomy, 478, 536

### Hydrofluoroalkanes

in metered dose inhalers, 1193  
transition to chlorofluorocarbons, drug development and, 1201

### Hypercapnia and hypercarbia

in lung-protective mechanical ventilation, 767

### Hyperinflation, dynamic

in mechanical ventilation, 110

### Hypertension

intra-abdominal, pressure-volume curves, 78

## I

### Immune disorders

book review  
*The Washington manual: allergy, asthma, and immunology subspecialty consult* (Jost BC et al), 394  
ventilator-associated pneumonia and, 757

### Immunosuppressive agents

sirolimus-induced interstitial pneumonitis (case report), 1659

### Inhalation devices. *See also Dry powder inhalers; Metered-dose inhalers*

albuterol delivery via tracheostomy tube, 1071

chlorofluorocarbon to hydrofluoroalkane transition, 1201  
 demonstrations and asthma patient compliance (editorial), 598  
 drug delivery issues and, 1228  
 history of, 1139  
 The inhalation of drugs: advantages and problems (Kittredge Lecture), 367  
 misuse of, patient education and, 1360  
 patient-device interactions and drug deposition, 1151
