

Coming in December

EDITOR'S CHOICE

Racial Disparities in Occult Hypoxemia and Clinically Based Mitigation Strategies

ORIGINAL RESEARCH

MI-E and Mucus Displacement During Invasive Ventilation

Treatment Outcomes and Risk Factors for BPAP Failure in COPD Exacerbation

Competence-Based Simulation to Improve Orientation Outcomes

HFNC and Standard Oxygen in COVID-19 AHRF

ASV and Lung-Protective Ventilation in ARDS

Invasive Mode of Different Heated Humidification Systems With HFNC

Including Organ Dysfunctions in a Predictive Score for Nosocomial Pneumonia

In Vitro Comparison of Two Blister-Type Inhalers

RT Experience During Withdrawal of Advanced Life-Sustaining Therapies

Burnout Among RTs Amid the COVID-19 Pandemic

Well-Being Among RTs During the COVID-19 Pandemic

RT Recognition of Patient-Ventilator Asynchrony

SHORT REPORTS

Comparison of Arterial Oxygenation Between Two Oxygen Masks

HFNC for COVID-19 on the General Ward

NARRATIVE REVIEW

RTs as Experts in Delphi Studies on Respiratory Practices and Research Priorities

EDITORIALS

Racial Disparities in Occult Hypoxemia

Mucus Displacement and MI-E During Invasive Ventilation

BPAP Failure in Patients Hospitalized for COPD Exacerbation
